

**NFO-15 – Addendum**  
**Modifications, compared to the hard copy of the booklet**  
**(for scientific program, please trust the e-booklet that is updated every day:**  
**<http://nfo15.utt.fr/doc/BOOKLET-NFO15-final.pdf>)**

**Cancelled talks:**

O. Keller (session A16), A. Alu (session B11), P. Bharadwaj (session B10)

**Replaced speakers:**

W. Wardley is replaced by W. Dickson (session B09)

J. Vogelsang is replaced by C. Lienau (session A12)

M. Unger is replaced by H. Stadler (industrial oral session)

**New talk:**

in session B11, G. Roubaud will give a 15 mn talk entitled

*“Far-field optimization of the optical near-field in disordered plasmonic metasurfaces”*

Thursday, 10:05 am

**Changed talk title:**

The title of the talk given by T. Grosjean (session A8, Tuesday) has changed. The new title is:  
“Magnetic spin-orbit interaction of light”

**Moved talks:**

The talk given by Y. Nagasaki moved from session B16 (Friday) to session B11 (Thursday)

**New posters:**

P10A2, P11A2, P12A2, P8A5, P27A10, P9A12, P10A12, P16B8

, see [http://nfo15.utt.fr/doc/NFO15\\_Poster\\_Abstract.pdf](http://nfo15.utt.fr/doc/NFO15_Poster_Abstract.pdf)

remark: P8A5 will be in the e-booklet from Monday

**Canceled posters:**

P10B10

**Chairpersons:**

S. Kawata and O. Martin will not be available for chairing sessions A10 and B06. They will be replaced by new chairmen: A. Bouhelier and D. Zhang respectively.

**Free NFO-15 Shuttle service:**

due to some important construction works in downtown, the shuttle schedule and route have changed (see pages 11-12 of the e-booklet)

**Social events:**

We have been informed that the grape-picking season will start during NFO-15. As the result, for all social events, we will have to leave UTT earlier than expected: On Wednesday, buses will leave UTT at 1:30 pm instead of 1:50 pm (the last poster session will be pretty short).

**Awards:**

The awards ceremony will take place on Thursday evening during the gala dinner, for both *best poster* awards and *ACS photonics* awards

Regarding the ACS photonics awards: the speakers who applied are identified by means of this sign:

**Thematic workshop:**

on “current and prospective applications of nanoscale optics” (Monday, 6:45 pm, at amphitheater N101): the updated program can be found at [http://nfo15.utt.fr/doc/NFO15\\_workshop.pdf](http://nfo15.utt.fr/doc/NFO15_workshop.pdf)

**Practical information:**

-There will be a lot of plugs on the conference spot.

Additional plugs are provided by 2 specific boxes that are made of safes (in case you want to deposit valuable stuffs for a short while) containing power supply and USB plugs.

These boxes are close to amphitheatres M500 and N101. They are easily recognizable:

-At the conference desk, the NFO-15 attendees will have the possibility to post any announcement of interest (open positions, publications,.):
