

 **nfo 15****THE 15TH INTERNATIONAL CONFERENCE**
ON NEAR-FIELD OPTICS, NANOPHOTONICS
& RELATED TECHNIQUES

The 15th international conference of Near-field Optics and Nanophotonics (NFO-15) will take place in the beautiful city of Troyes in the Champagne Region of France on August 26-31 2018.

Since 1992, NFO conference has been held every second year all over the world. This conference is now the most established and outstanding scientific event that focuses on near-field optics, nanophotonics, plasmonics and related domains.

The University of Technology of Troyes (UTT) is proud to host NFO-15. UTT is a young, modern and dynamic University where high level science and technology are developed at the service of knowledge, humanity and society.

We invite you to discover the city of Troyes and the Champagne Region. Experience French culture, art and history in our medieval city located on the Seine river about 150 km southeast of Paris.

SAVE THE DATE to join us and enjoy a great scientific program, engaging discussions, delicious food, amazing art and history, and of course, drinking Champagne!!

Renaud Bachelot and Jérôme Plain

NFO-15 Features

1 school, 140 regular talks, 30 invited talks, 5 plenary sessions, 3 interactive and synergic periods including poster sessions, small thematic workshops, exhibitions and experimental demonstrations.

Committees

International Advisory Committee

- **Javier AIZPURUA** (DIPC and CSIC-UPV/EHU, Spain)
- **Andrea BRAGAS** (University of Buenos Aires, Argentina)
- **Jordan GERTON** (University of Utah, USA)
- **Jean-Jacques GREFFET** (Institute of Optics of Paris, France)
- **Naomi HALAS** (Rice University, USA)
- **Bert HECHT** (University of Würzburg, Germany)
- **Rainer HILLENBRAND** (CIC nanoGUNE and Ikerbasque, Spain)
- **Wonho JHE** (Seoul National University, Korea)
- **Satoshi KAWATA** (Osaka University, Japan)
- **Yoshimasa KAWATA** (Shizuoka University, Japan)
- **Fritz KEILMANN** (Ludwig Maximilians Universität, Germany)
- **Ole KELLER** (University of Aalborg, Denmark)
- **Joachim KRENN** (Karl Franzens University Graz, Austria)
- **Olivier MARTIN** (Swiss Federal Institute of Technology Lausanne, Switzerland)
- **Alfred MEIXNER** (Eberhard-Karls-Universität Tübingen, Germany)
- **Lukas NOVOTNY** (ETH Zurich, Switzerland)
- **Markus RASCHKE** (University of Colorado, USA)
- **Vahid SANDOGHDAR** (Max Planck Institute for the Science of Light, Germany)
- **P. James SCHUCK** (Lawrence Berkeley Laboratory, USA)
- **Din Ping TSAI** (National Taiwan University, Taiwan)
- **Niek VAN HULST** (ICFO, Spain)
- **Xing ZHU** (Peking University, China)

International Program Committee

- **Javier Garcia de ABAJO** (ICFO, Spain)
- **Volker DECKERT** (Friedrich Schiller University Jena, Germany)
- **Zhenchao DONG** (University of Science and Technology of China, China)
- **Reuven GORDON** (University of Victoria, Canada)
- **Achim HARTSCHUH** (Ludwig Maximilians Universität, Germany)
- **Christiane HOEPPENER** (Westfälische Wilhelms Universität Münster, Germany)
- **Robin (Chen-Bin) HUANG** (National Tsing Hua University, Taiwan)
- **Francesca INTONTI** (University of Florence, Italy)
- **Dai-Sik KIM** (Seoul National University, Korea)
- **Kobus KUIPERS** (Technical University Delft, The Netherlands)
- **Mathieu KOCIAK** (Université Paris-Sud, France)
- **Stefan MAIER** (Imperial College London, UK)
- **Peter NORDLANDER** (Rice University, USA)
- **Teri ODOM** (Northwestern University, USA)
- **Pramod REDDY** (University of Michigan, USA)
- **Claus ROPERS** (Georg August Universität Göttingen, Germany)
- **Toshiharu SAIKI** (Keio University, Japan)
- **Alex WEBER-BARGIONI** (Lawrence Berkeley National Laboratory, USA)
- **Jérôme WENGER** (CNRS-Institut Fresnel, France)
- **Qihua XIONG** (Nanyang Technological University, Singapore)
